

HILLTOP GOSPEL CHOIR

Roberta Shimensky, Director

This one is my favorite and is based on musical and Christian symbology and could be called a rune.

One could interpret it this way:

- the stylized sesquiflat (rare musical notation) for "heart"*
- Sine wave for the "hilltop" or "open arms"*
- Modified "sharp" forms the cross and is also a "plus" sign*

*The word of the mark is a hand-styled variant of a
font called Kennerly.*
